# AFLAC GROUP HOSPITAL INDEMNITY

## The plan that can help with expenses and protect your savings.

Does your major medical insurance cover all of your bills?

Even a minor trip to the hospital can present you with unexpected expenses and medical bills. And even with major medical insurance, your plan may only pay a portion of your entire stay.

### That's how the Aflac Group Hospital Indemnity plan can help.

It provides financial assistance to enhance your current coverage. It may help avoid dipping into savings or having to borrow to address out-of-pocket-expenses major medical insurance was never intended to cover. Like transportation and meals for family members, help with child care, or time away from work, for instance.

The Aflac Group Hospital Indemnity plan benefits include the following:

- Hospital Confinement Benefit
- Hospital Admission Benefit
- Hospital Intensive Care Benefit and more

### How It Works:

Aflac Group Hospital Indemnity coverage is selected.

The insured has a high fever and goes to the emergency room

The physician admits the insured into the hospital.

The insured is released after two days.

Aflac Group Hospital Indemnity  
M1d plan pays:

**\$3,900**

Amount payable was generated based on benefit amounts for: Hospital Admission (\$2,200) and Hospital Confinement (\$850 per day).

The plan has limitations and exclusions that may affect benefits payable. This brochure is for illustrative purposes only. Refer to your certificate for complete details, definitions, limitations, and exclusions.

A Covered Accident is an accident that occurs on or after an insured's effective date while coverage is in force, and that is not specifically excluded by the plan.

Dependent means your spouse or dependent children, as defined in the applicable rider, who have been accepted for coverage. Spouse is your legal wife, husband, or partner in a legally recognized union. Refer to your certificate for details.

Dependent Children are your or your spouse's natural children, step-children, grandchildren who are in your legal custody and residing with you, foster children, children subject to legal guardianship, legally adopted children (in Texas, adopted children), or children placed for adoption. (In Florida, coverage may be provided for the children of custodial and non-custodial parents.) Newborn children are automatically covered from the moment of birth for 60 days. Newly adopted children (and foster children in North Carolina) are automatically covered for 60 days also. See certificate for details. Dependent children must be younger than age 26 (and in Louisiana and Illinois, unmarried). See certificate for details.

Doctor is a person who is duly qualified as a practitioner of the healing arts acting within the scope of his license, and: is licensed to practice medicine; prescribe and administer drugs; or to perform surgery, or is a duly qualified medical practitioner according to the laws and regulations in the state in which treatment is made.

In Montana: For purposes of treatment, the insured has full freedom of choice in the selection of any licensed physician, physician assistant, dentist, osteopath, chiropractor, optometrist, podiatrist, licensed social worker, psychologist, licensed professional counselor, acupuncturist, naturopathic physician, physical therapist, or advanced practice registered nurse.

A Doctor does not include you or any of your Family Members. For the purposes of this definition, Family Member includes your spouse as well as the following members of your immediate family: son, daughter, mother, father, sister, or brother. In Arizona, however, a doctor who is your family member may treat you. In South Dakota, however, a doctor who is your family member may treat you if that doctor is the only doctor in the area and acts within the scope of his or her practice.

A Hospital is not a nursing home; an extended care facility; a skilled nursing facility; a rest home or home for the aged; a rehabilitation facility; a facility for the treatment of alcoholism or drug addiction (except in Vermont); an assisted living facility; or any facility not meeting the definition of a Hospital as defined in the certificate.

The doctor must be knowledgeable and experienced in rehabilitative medicine. Beds must be set up in a unit or facility specifically designated and staffed for this service.
