Urgent Care

Urgent Care

What's urgent care?

At our UHealth Jackson Urgent Care centers, we provide quick, high-quality medical treatment for non-life-threatening conditions. If you're feeling sick or have a minor injury, our urgent care centers offer a faster, more affordable alternative to the emergency room.

When to visit UHealth Jackson Urgent Care

Our board-certified doctors are trained to treat patients of all ages for:

- Cold, flu, or COVID-19 symptoms
- Minor cuts, burns, or injuries
- Sprains, strains, or joint pain
- Urinary tract infections
- Allergies and skin rashes
- Dehydration
- Mild dizziness
- Fever without severe symptoms

For serious emergencies, such as chest pain, stroke symptoms, or severe injuries, call 911 or go to the emergency room.

What to expect during your visit

Walk in or check in online—no appointment needed. Once you arrive, one of our team members will evaluate you and determine the best course of treatment. Whether you need medication, testing, or expert advice, we're here to provide the care and support you need.

Why choose UHealth Jackson Urgent Care?

- **Shorter wait times:** Most visits take less than an hour.
- **Affordable care:** Lower cost than an emergency room visit.
- **On-site services:** X-rays, lab tests, and prescriptions available.
- **Compassionate staff:** Patient-centered care for all ages.
- **Autism-friendly:** We offer sensory-friendly rooms and trained staff to accommodate children with autism and related disabilities.
